

Product Information

Whether it's an illness or an injury, Plasvacc helps get dogs home where they belong. When everyone is counting on you, you can count on CaniPlas.

CANINE PLASMA PRODUCTS

CaniPlas®

Hyperimmunized, fresh frozen, single-donor, cell-free canine plasma intended for clinical transfusion in dogs. When used in conjunction with conventional veterinary therapies, it may shorten the course of treatment, reduce hospitalization periods and lessen the quantity of drugs required for a patient's full recovery. *Available in 100mL and 200mL bags.*

CaniPlas may be used for a wide variety of canine illnesses and infections, including:

GASTRO-INTESTINAL

- Parvovirus Infection
- Hemorrhagic Gastro-Enteritis (HGE)
- Gastric Dilatation-Volvulus (GDV)
- Acute Pancreatitis
- All Intestinal catastrophies (obstruction, torsion, etc)
- All cases of diarrhea & vomiting

SEVERE INFECTIONS

(especially if complicated by Endotoxemia)

- Pyometra
- Prostatic abscesses & infections

- Cellulitis
- Distemper
- Rotavirus infection
- Thrombocytopenia (Ehrlichia platys infection, chemotherapy)

GENERAL

- Failure of passive transfer (FPT) in canine neonates
- Fading puppy syndrome
- Hypoproteinemia (parasitisms)
- Hypoalbuminemia
- Acute corneal ulcers
- Major surgery (amputations)
- Heat Stroke

COAGULOPATHIES

- Disseminated Intravascular Coagulations
- Rodenticide Toxicity
- Von Willebrands Disease
- Hemophilia
- Envenomations

PURITY & SAFETY

Our donor pack is carefully screened, meticulously cared for, and quarantined at our kennel in Queensland, Australia.

All CaniPlas plasma batches are tested for their safety, purity, sterility, and potency. Additionally, we ensure all batches are free of pyrogens and endotoxins due to collections with a sterile disposable collection kit.

We perform extensive ongoing testing for:

- Dirofilaria immitis infection
- Coxiella burnetii (Q Fever) infection
- Babesia gibsoni infection
- Anaplasma spp
- Bartonella spp
- Mycoplasma spp

CaniPlas contains proven levels of Clotting Factors.†
